DETAILED ACTION

Allowable Subject Matter

1. Claims 8, 10-17, 19-34, 38-42 and 45-46 allowed.
2. The following is an examiner's statement of reasons for allowance: although the prior art of record teaches gate widths of dual-gates having different size but the gate lengths is the same, with respect to claims 8, 17, 19, 22, 34 and 39, in addition to other limitations in the claims, the prior art fails to teach, disclose, or render obvious the applicant's invention as claimed, particularly the feature describing:

- the modified gate having a length that is of a different size from the gate lengths of other series connected dual-gate field effect transistors.

- one of said series connected dual-gate field effect transistors having a modified gate therein that is of a different size from gates of other series and a heavily doped cap layer fabricated upon the transistor connection segment between the gates.

- a heavily doped cap layer fabricated upon the transistor connection segment between the gate fingers and the gate fingers being of different sizes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
